

NAD & PRA1 DNA TESTING
*******DISCOUNTS & COLLECTION SUPPORT*******

During our 2017 National Specialty, the Papillon Club of America's Genetic Research Committee is offering several ways to save you time and money on your NAD and PRA1 DNA Testing!

- 1) **Cheek swabs:** We will have cheek swabs available at the Genetics table. We will have both the plastic handled ones required by PennGen for NAD DNA testing as well as other types acceptable for PRA1 DNA testing. All of the labs offering PRA1 DNA testing will supply you with sample collection kits (including cheek swabs) either upon request or when you place your order.
- 2) **NAD Test Collection:** Do you need to do some NAD DNA testing? Place your order online as usual (research.vet.upenn.edu/penngen) and then bring your completed paperwork and samples to the PCA Genetics Committee. We will collect and mail your NAD order, along with your DNA samples, to PennGen for processing.
- 3) **Discount for PRA1 DNA Testing:** Papillon Club of America is sponsoring an "OptiGen PRA1 Clinic" in conjunction with our 2017 National Specialty - a chance to save up to 25% on your PRA1 DNA testing. See the "PRA1 DNA Test - OptiGen Clinic Discount" flyer or go to OptiGen's (www.optigen.com) "Clinic Schedule" for more information.
- 4) **PRA1 1/2 Price Certificates:** OptiGen has generously donated two (2) 1/2 price certificates to PCA Genetics to use as fundraisers. One of the certificates will be a silent auction item - so be sure to bid early and often! The other 1/2 price certificate will be raffled off. So buy your raffle tickets early and often! These certificates can be used in conjunction with the "OptiGen Clinic Discount" offer (see #3 above). Could be some big savings for a couple of lucky winners!

Frequently Asked Questions:

Do I have to be a member of Papillon Club of America?

No!! Anyone can participate.

*Who can I contact for more information and about **sharing** my dog's NAD and PRA1 Results?*
